

## **Manufacturing Since 1926**

Baker & Davies Joinery is a 4th generation family business.

Established in 1926 as a traditional joinery works, Baker & Davies have always been manufacturers of timber windows and timber doors. We specialise in custom made windows and doors to our clients specifications or to match existing.

## **Why Wood?**

- A renewable resource
- A beautiful natural product
- Change colour with a coat of paint
- Perfect insulating material
- Easy to repair after years of service
- Greater variation in design
- Reduce carbon emissions

## **Manufacturers of Premium Timber Doors**

### **Bi-fold doors**

- Retractable flyscreen option
- 'Brio' bi-fold door system
- 'Protector' mortice lock, handle and cylinder can be factory fitted

### **Sliding doors**

- Overhead track or bottom rollers
- 'Jacksons' mortice lock and cylinder can be factory fitted
- Sliding timber flydoors can be factory fitted

### **5 point multi-locking system for French doors**

The German made Wink-Haus 5 point multi-lock system for French doors is fitted in our factory. It provides reliable function and the strength of a high security lock. It incorporates locking bolts to the top and bottom of both active and inactive doors. All bolts are operated by the handles. It enables us to make up to 3 meter high doors that pull in tightly against the weather seal. No need to bend down or climb on a chair to unbolt your inactive door.
